

QUALITY MADE IN GERMANY. SINCE 1949.

SCHLACHTHAUSFREUND

QUALITY MADE IN GERMANY. SINCE 1949.

SCHLACHTHAUSFREUND GMBH was founded in 1949 and is a family business operating on an international level. We are premium manufacturers and suppliers of protective clothing and equipment for the food industry.

With our efficient structures and highly qualified employees, we are able to react quickly and effectively to international trends and new market requirements.

We were awarded globally recognised AEO certification in 2011, which means our products are given preferential treatment during customs procedures. As a result, our products find their way to the customers that bit quicker. We generate 75 % of our total sales with

exports to more than 100 countries around the world.

Everything in our product portfolio is subject to our stringent safety and quality checks. Upon request, we also require our suppliers and business partners to regularly provide us with up-to-date laboratory reports regarding product ingredients and the food safety of the raw materials used. The safety of our products is corroborated by the renowned SGS INSTITUT FRESENIUS.

As far as we are concerned, safety and quality also mean being a reliable partner for our customers: renowned rating agencies awarded us with top credit rating since many years.

UNCOMPROMISING SAFETY AND QUALITY.

We are premium manufacturers and suppliers of protective clothing and equipment for the food industry.

Drawing on our passion, energy and expertise, we develop, produce and market items that offer the utmost safety and unparalleled quality. Be it innovative products of our own, unusual special development requests or top-quality standard items, we uncompromisingly do everything we can to reliably offer our customers the best possible products.

In keeping with our family tradition, we regularly de-

velop innovations for the market and optimise existing products. We aim to be one step ahead of the rest with our products. Many of our innovative product developments have become veritable classics.

In addition to the items we manufacture ourselves, we are proud to offer a wide array of high-quality products in the areas of protective clothing and food industry equipment. There are more than 1,000 items waiting to be discovered at www.schlachthausfreund.com or in our latest catalogue. Incidentally, we already boast a wide variety of detectable products in our product range.

WORK APRONS

As the market leader in Germany, one of the world's leading manufacturers in this market, and the inventor of the classic butcher's apron and the TPU apron, we are especially motivated to research innovative solutions and useful product innovations in the area of work aprons – and to also implement these solutions.

We produce our classic aprons and also aprons in accordance with our customers' specifications using various materials, in various material thicknesses, in a variety of different colours and with a diverse array of fastening systems.

The globally renowned SGS INSTITUT FRESENIUS has tested our aprons and classified them as good. Our Rubber aprons even with the LFGB Certificate.

Every day, we look for modifications and intelligent solutions that will comply with and surpass hygiene and safety standards which are becoming stricter all the time. Aprons from the inventor of the butcher's apron – the original from SCHLACHTHAUFREUND.

STAHLNETZ® CHAIN MESH ARTICLES AND ACCESSORIES

SCHLACHTHAUSFREUND's STAHLNETZ® products comply with all the latest CE norms and are, of course, approved for use in the food industry.

We were one of the first manufacturers to have our chain mesh items tested and certified in accordance with the latest CE norm EN 14328 and also have our chain mesh aprons certified in accordance with EN ISO 13998. Our products are entirely developed and manufactured in Germany and comply with the very latest hygiene and safety requirements. Our chain mesh items are used in a wide array of areas:

- Meat processing industry
- Fish industry
- Poultry processing
- Food service industry and industrial kitchens

- Automotive industry
- Textile industry
- Leather processing
- Forestry work
- Hunting
- Oyster gloves

We are happy to make our chain mesh into special items made in accordance with your specifications, such as impenetrable inlays for protective vests, mail shirts, decor items and much more. And it goes without saying that we also offer a fast and effective repair service for all the chain mesh items we produce.

You're always safe with STAHLNETZ® chain mesh items!

CUTGUARD® CUT - RESISTANT GLOVES

SCHLACHTHAUSFREUND offers a wide array of cut-resistant gloves. All of our gloves are tested and certified in accordance with CE EN 388:2016 and comfortably surpass the requirements for the maximum cut resistance level, Level F. We supply our Cutguard® cut-resistant gloves in the following versions, in order to cater for all the different possible uses:

- various materials
- various gauges
- various colours
- with or without a stainless steel core
- with reinforced fingertips

Our portfolio of gloves ranges from lightweight, touch-sensitive, cut-resistant gloves for the cutting hand to heavy, cut-resistant gloves worn on the hand holding the material being cut.

Our cut-resistant gloves are machine-washable at high temperatures and have been specially developed for and are approved for use in the food industry.

All of our Cutguard® cut-resistant gloves come in a variety of sizes and are colour-coded in the same way as our chain mesh gloves.
