SCHLACHTHAUSFREUND

SAFETY AND QUALITY. DESIGNED AND MANUFACTURED IN GERMANY. SINCE 1949.

Schlachthausfreund GmbH is a family firm, founded in 1949. From the start, we have concentrated our efforts on the manufacture and marketing of equipment and protective clothing for the meat, foodstuff and technical industries. Our product range features many items manufactured exclusively by us, including our own patents with several award-winners. Our own manufacture specialises in stab-resistant and cut-resistant clothing, butcher and work aprons, glovefitters and knife scabbards. To this we have added a selection of high-quality general purpose articles, machinery, parts and accessories sourced from the best and most competitive suppliers on the global market. Our company, situated in the Lüneburger Heide in Lower Saxony, currently exports directly to clients in over 100 countries worldwide.

We pride ourselves on being an uncompromisingly trustworthy, competent and reliable supplier of quality products to the wholesale and retail specialist trade. We offer competitive prices and fast shipment. Our high quality standards are applied from the first step, the sourcing of raw materials. We demand regular quality control from all our suppliers and insist on product testing with up-to-date lab reports. Only such rigorous quality control allows us to guarantee that you, as buyers and sellers of our products, can be absolutely confident that with Schlachthausfreund you are always on the safe side.

SAFETY AND QUALITY. NO COMPROMISES.

We are premium manufacturers and wholesalers of protective clothing and equipment for the foodstuffs industry. Our passion, energy and experience drives our development, production and sale of articles conforming to the highest safety standards and of exemplary quality. From our own innovations to highly customised solutions to high-quality standard products, we are uncompromising in our aim to offer our clients the best products at all times. We are proud of our fine family tradition, which sees us regularly developing new products or optimising existing ones in respose to changing market needs.

The principle aim of our product development is to stay one step ahead of the market. Many of our own innovations have become true classics.

In addition to the products from our own manufacture, we are proud to be able to offer a wide range of high-quality protective clothing and equipment for the foodstuffs industry. You can browse through over 1,000 articles on our website: www.schlachthausfreund.com or in our current catalogue.

WORK APRONS

As the German market leader and one of the leading manufacturers worldwide, as inventors of the classic butcher apron and as inventors of the TPU apron, we are particularly motivated to search for innovative solutions and practical new products in the work apron area and implement them in our production. Our classics (and of course customised orders) are made in a wide variety of materials and material strengths, often in several colours and with a range of closure systems.

The globally recognised SGS INSTITUT FRESENIUS has

BAKING AND CONFECTIONERY INDUSTRY

AGRICULTURAL INDUSTRY

tested our aprons for us and pronounced them good. The rubber aprons were even awarded the LFGB certificate. We are always searching, literally on a daily basis, for innovative and intelligent solutions, in order not only to fulfill but also to be ahead of increasingly restrictive hygiene and safety requirements.

Aprons from the inventor of the Butcher apron – the Original made by SCHLACHTHAUSFREUND. Our apron icons will help you see which aprons are best suited to which industry:

SHOP/POINT-OF SALE, BAR/COUNTER SERVICE, HOTEL/RESTAURANT/ CATERING, GASTRONOMY AND COMMERCIAL KITCHENS

CLEANING INDUSTRY

STAHLNETZ[®]

STAB-RESISTANT ARTICLES AND ACCESSORIES

SCHLACHTHAUSFREUND STAHLNETZ products fulfil all current EU CE norms and are naturally certified for use in the foodstuffs industry. We were one of the first manufacturers to have stab-resistant articles tested and certified in accordance with the current CE-Norm EN 14328 and also stab-resistant aprons in accordance with Norm EN ISO 13998. Our products are 100% made in Germany and have been developed and produced in line with the latest hygiene and safety requirements. The areas where our STAHLNETZ stab-resistant articles play a vital role are many and varied:

- Meat industry
- Fish industry
- Poultry processing
- Gastronomy and commercial kitchens
- Automobile industry
- Textile industry
- Leather processing
- Forestry
- Hunting/Woodland management
- Oyster gloves

We are also pleased to offer customised mesh solutions to suit your own specifications, for instance, stab-proof reinforcements for safety jackets, chainmail shirts and decorative articles. Of course, we also offer a fast and competent repair service for our own and all other certified brands. With STAHLNETZ stab-resistant articles, you can be sure you are always on the safe side!

STAHLNETZ[®] **STAB-RESISTANT GLOVES**

PROTEC®

Our patented stab-resistant glove, Protec®, features an easily replaceable plastic closure band and conforms to EN 1082-1

• EN 1082-1 certified

- · Light, comfortable, perfect hygiene, easy-care
- · Tried-and-tested press-stud solution (enables perfect fitting as well as fast emergency release)
- Easy band replacement no tools required
- · Easily turned to fit left or right hand no tools required
- · Automatic prevention of closure band from sideways slip

REPAIR SERVICE

 ∇

We repair all brands of stab-resistant mesh gloves and aprons and also supply spare parts for our own stab-resistant gloves (closure bands, clasps and buckles, press-studs). We can also carry out alterations to your requirements and make customised items to measure and/or your specifications. Please let us know what you need, we would be pleased to give you a cost estimate.

GLOVEFITTER® GLOVE TIGHTENERS / FINGERFIX

You can depend on our robust one-size Glovefitter[®] glove tighteners to give your gloves a lasting, snug fit. Use them with your chainmesh gloves to even out half-size differences or just for more comfort.

Die-stamped from hygienic and elastic PU foil, we can sup-

ply the Glovefitter® glove tighteners in Standard, metal-detectable and metal/x-ray detectable versions. Our range was extended in 2017 to include our Glovefitter® Neo with its patented design and protected shape.

Our glove tighteners are available in the the standard colours white, green or blue. We can make other colours on request.

GLOVE TIGHTENERS / FINGERFIX

GLOVEFITTER®

We manufacture our Glovefitter[®] glove tighteners in our own factory. We have designed them to improve the fit of chainmesh stab-resistant gloves.

- · Made from hygienic, elastic PU foil
- Can help to even out possible size/half-size differences for better-fitting stab-resistant chainmesh gloves

CUTGUARD® CUT-RESISTANT GLOVES

SCHLACHTHAUSFREUND offers you a wide range of cut-resistant gloves. All our glove models have been tested and certified as conforming to CE EN 388:2016, exceeding the Norm's requirements for the highest cut-resistance, level F, by several levels. We can always provide you with the right gloves for different workplace requirements as we supply a range of gloves with varying specifications:

- in different fibres
- · in different gauges
- · in different colours
- · with and without steel core
- · with reinforced fingertips

We can offer a wide range, from the lightest, touch-sensitive cut-resistant glove for the knife hand to the heavy-duty cut-resistant glove for the protection of the hand holding the product to be cut.

Our cut-resistant gloves can be machine-washed at high temperatures and have been specially developed and cetrified for use in the foodstuffs industry.

All Cutguard® cut-resistant gloves are available in a range of sizes, identified by the same Euronorm colour-code as stab-resistant gloves.

(STAHLNETZ)[®] CUT - RESISTANT GLOVES

CUTGUARD[®] ghost

The Cutguard® ghost is extremely thin and lightweight with an 18 gauge and 20 g weight per glove. Nevertheless, it offers unprecedented tactile properties while providing reliable cut protection for the knife-wielding hand.

- Ultimate tactile properties
- Extremely light and at the same time strong performance
- Specially designed for the knife hand
- · CE certified EN 388:2016
- Highest cut-resistance: Level F
- Free of glass fibres
- Also available in detectable version
- · Excellent touch-sensitivity

- Noticeably lighter than regular brands
- Blue colour for easier recognition in the production chain
- Extra-long cuff for increased protection
- Suitable and certified for use in the foodstuffs industry
- · Washable at high temperatures
- Size indicated by Euronorm colour code on cuff (as on stab-resistant gloves)

SCHER ON THAUS

KNIFE SCABBARDS AND KNIFE SHEATHS

SCHLACHTHAUSFREUND was the first to manufacture knife scabbards and sheaths for the foodstuffs industry, using hygienic plastic and apron material. We lead the international market in knife scabbards for the foodstuffs industry. A wide choice of different shapes and sizes enables the storage and safeguarding of a variety of knives and tools of all brands.

Our knife scabbards are easy to clean, practical, safe and durable. We will always be able to supply the right knife scabbard for your needs.

PLASTIKA

Our Plastika knife scabbards, flat scabbards and knife sheaths ensure practical and hygienic safekeeping for your knives.

- Robust material for long durability
- Safe and hygienic
- · For 4 knives
- Made from special plastic, robust and hygienic

- · Plastic compartments that are easily removed and dismantled
- · Easy to clean, may be sterilised
- · Available solo or as complete set with belt and steel strap

INNOVATION MEETS TRADITION: SOME OF OUR INVENTIONS, PATENTS AND ACHIEVEMENTS

1952:

We invent the first waterproof and washable work aprons. We receive our first patent protection in 1953 (DGBM 1662084).

1972:

We are the first European manufacturer to produce knife scabbards for the food industry from hygienic plastic and apron material.

1977:

We invent the first Butcher Apron with a replaceable neckband which can be adjusted on both sides (DGBM 7719060).

1979:

We are the first to manufacture polyurethane foil aprons for the foodstuffs industry (registered brand: LEDOLIN®).

1998:

We invent the first stab-resistant glove with a hygienic plastic closure band which can be exchanged without tools.

2004:

We invent the first stab-resistant glove with an exchangeable stainless steel closure.

2007:

We develop the first antibacterial polyurethane work apron possessing a strong antibacterial and fungicide action but without the use of harmful ingredients. Confirmed by the FRESENIUS Institute.

2008:

We develop the first stainless steel knife basket which costs less than the value of its contents, which it helps to protect, transport and/or clean.

2009:

We are now offering a wider range worldwide of colours, materials, types and styles of work aprons for the foodstuffs industry than any other manufacturers we know.

2010:

We manufacture the first polyurethane work apron with no ties, closures, hooks or rivets of any kind.

2010

We start offering all our polyurethane work aprons on request "100% metal-free".

2011:

We invent the first stab-resistant glove with a patented spring closure which does not directly touch the wearer's skin and which at the same time was tested and certified as conforming to the the latest CE norm for stab-resistant gloves, EN 14328.

2011:

We are awarded AEO Certification (Authorized Economic Operator). the immediate result is that our exports and imports have priority status and enjoy expedited Customs clearance.

2011:

We become official partner of the famous Michelin-starred chef, Christian Rach, and his restaurant.

2012:

We expand our range to include detectable products for the meat and foodstuffs industry.

2013:

Following 2012, in 2013 we once again achieve credit rating index 1. In the same year we present, as the first manufacturer worldwide, our detectable glove-tightener, Glovefitter® and present the first detectable apron for repeated use at the IFFA Trade Fair in Frankfurt.

2014:

It only hooks in where it should - we introduce the Falcon, the first stab-resistant glove with an intelligent hook closure system.

2015:

We present the lightest work boots in the world.

2016:

63.000 visitors. 43 nations. 6 days of the best business imaginable. One big thank you to IFFA 2016 from the complete Schlachthausfreund-Team

2016:

Following on 2012, 2013, 2014 and 2015, in 2016 the rating agencies creditsafe, Creditreform and Bürgel once again awarded us their credit rating index 1. In the same year we present the world's first fully detectable NBR-coated rubber butcher apron. Even small scraps of this material will be detected by the commonly used metal and X-ray detectors, ensuring product safety within the production process.

2017:

We are proud of our test results in our cut-resistant range: all cutguard® cut-resistant gloves achieve the highest possible cut-resistance level F. In the same year, we presented our Glovefitter® Neo, the low-price alternative to the Glovefitter®. And this year finds us once again with the top credit rating index 1, awarded by the rating agencies, creditsafe, Creditreform and Bürgel.

2018:

We now offer our LEDOLIN® PUre aprons and LEDOLIN® PUre sleeve protectors in white, blue, red, yellow and green.

2019:

BIOLIN[®]: SCHLACHTHAUSFREUND GmbH registers the first 100% biodegradable and compostable reusable work apron as a utility model.

2019:

We build for you! Another warehouse is being built on our premises. More space for products made with passion, which can then be delivered to you even faster. Completion in May 2021.
