CUTGUARD® orca

The innovative cut-resistant glove for use for oily/greasy and damp working environments in the food industry

- **15 gauge: for excellent tactile sensitivity**
- **Outstanding grip in oily/greasy and damp conditions**
- **Optimal comfort: the waterproof coating keeps hands warm and dry**
- **Soft and flexible coating reduces hand fatigue**
- **CE certified to EN 388:2016+A1:2018 and EN ISO 21420:2020**
- **Highest level of cut protection: Level F**
- **Tested and approved for the food industry**
- **Environmentally friendly coating material**

Advantages over conventional nitrile-coated gloves:

- Innovative PU coating technology with significantly lower migration levels for absolute food safety
- Less chemicals / better environmental sustainability: Sulphur-free, water-based coating
- Consistently higher flexibility for less tiring work
- Longer shelf life under challenging conditions
- Highest cut resistance Level F
